Flower and Garden Seeds,
Bulbs, Plants and Flowers.

MANGUM & CO., PRINTERS.

TO FRIENDS AND CUSTOMERS.

In presenting to you annual catalogue and price list for 1899, I take pleasure in thanking you for the liberal patronage you have given me and respectfully ask for a continuance of the same for the future.

Nothing for which money is expended makes so large returns as **Seeds**, if they are *good*. Nothing causes greater vexation than *worthless* seeds. If you wish to avoid disappointment don't rely on seeds peddled over the country and *sold on commission—the chances are against their vegetating*. I furnish the Trade exactly the same quality of seeds that I send to the best Market Gardeners. Hence I feel no hesitancy in saying that they are the purest and best to be found. At the same time, however, it must be distinctly understood, since the success of a crop is dependent upon so many contingencies, as condition of soil, mode of planting, climate, etc., that I cannot warrant my Seeds or hold myself responsible for any loss or damage arising from any failure thereof.

TO THE LOVERS OF FLOWERS:

The Trans-Mississippi and International Exposition grounds were a sight not soon to be forgotten. It was acknowledged by all visitors both from the east and the west to be superior to the World's Fair and called forth praise from everyone, many visitors spending as much or more time among the flowers as the buildings. I had the pleasure of furnishing all Flower Seeds used on the grounds of the Trans-Mississippi Exposition Co., the management acknowledging the superiority of my seeds over all others which was attested by the many compliments I received from all sources for quality and varieties. It was the sight of a life time to see the acres of beautiful bloom, the Sweet Peas, Nasturtiums, Asters, Petunias and Verbenas being particularly admired by all. If you want a Flower Garden, plant my High Grade Seed and you will not be disappointed.

I carry a large and choice stock of **Grass Seeds** adapted to the climate of Western States. Orders always filled promptly at lowest market price.

Terms of Sale—Cash with order. REMITTANCES may be made at my risk by draft, money order, cash by express or in registered letters. Will take postage stamps in any amount. Express money orders are always safe, and in case of loss quick adjustment can be made.

Seeds by Mail or Express—8 cents per pound should be added for prepayment of postage, if wanted by mail or prepaid express. The express companies will generally be found the most economical mode of conveyance. In the absence of specific shipping directions, I shall send by the cheapest way. I do not guarantee the safe arrival of goods sent by mail; it is rare, however, that seeds fail to reach their destination safely in that way.

Special Offer to Cash Buyers—As an inducement to purchasers of my seeds in **packets only** I make this **most liberal offer**, but I wish it thoroughly understood that it applies to orders for seeds in **PACKETS ONLY**, and not to orders for an ounce or more:

Purchasers remitting \$1.00 may select Seeds, in Packets Only, to the value of \$1.30.	
“ “ 2.00 “ “ “ “ “ “ “ “	2.65.

GENERAL OFFICES
EXPOSITION GROUNDS

DEPARTMENT OF BUILDINGS AND GROUNDS,
FREEMAN P. KIRKENDALL, MGR.

Omaha, Neb., Oct., 27, 1898.

Mr. S. B. Stewart, Seedsman and Florist,
Omaha, Neb.

DEAR SIR.

The beauty and superior excellence of your Flowers on the Trans-Mississippi Exposition grounds held at Omaha, during the summer of 1898 deserves special mention and I feel that I would not be doing you justice did I not acknowledge same in some way.

For beauty let the crowds who admired them attest. The seeds planted were remarkable in vitality and for quick germinating quality certainly could not be surpassed and I must say all proved true to name. The lovers of flowers certainly will make no mistake in purchasing such seeds.

Respectfully Yours,

J. H. HADKINSON, Supt. Landscape Gardening.

ASPARAGUS.

Culture.—Sow the seeds in the spring, in drills about 12 inches apart. Thin out seedlings, only leaving the strongest. At one or two years transplant to permanent beds.

	Pkt	Oz
Colossal, the Standard variety	5	10
Palmetto, a desirable bright green variety		10

BEANS.

Dwarf, or Snap Beans.

Culture.—In early May, in a warm and sheltered spot, sow in drills about two inches deep and eighteen inches apart. Sow every two weeks for succession.

	Pkt	Qt
Landreth's First in Market	5	30
Dwarf Horticultural. Late and productive	5	25
Early Mohawk. Long flat pods, very hardy	5	25
Extra Early Refugee. Two weeks earlier than the famous Refugee	5	25
Extra Early Valentine. The standard dwarf Bean	5	25
Round Yellow Six-Weeks. Early. A leading market sort	5	25
Refugee, or 1000 to 1. Very productive and tender, late	5	20

DWARF WAX BEANS

Landreth's Scarlet. Very productive and early	5	30
Improved Golden Wax. Very early, round golden pods	5	25
Improved Prolific Black Wax. Stringless and of fine quality	5	25

White Wax. One of the best	5	20
Wardwell's Kidney Wax. Free from rust, early	5	25

GROCERY BEANS

White Cranberry, Field bean	5	20
White Kidney Royal Dwarf, or field bean Navy	5	20

DWARF LIMA BEANS.

Dwarf (Henderson's)	5	25
Dreer's Bush Lima	5	35
True Dwarf Lima (Burpee)	5	35

POLE OR RUNNING BEANS.

CULTURE.—Sow as soon as the soil is warm and dry, about the end of May, in hills about four feet apart each way. Poles eight or ten feet long should be firmly set in the center of the hills before putting in the seed.

POLE BEANS.

	Pkt	Qt
Lima. Extra Early Jersey	5	35
Lima. Large Jersey	5	30
Lima. King of the Garden	5	35
White Dutch, or Case Knife	5	25
Horticultural Pole	5	30
Tall German Wax, Black Seed	5	25
Old Homestead	5	30
Red Speckled Oval Seeded Cut Short	5	35

BEET.

CULTURE.—Sow as early as possible in the spring and every two weeks after for a succession up to the first week in July. The soil should be light and well manured. Sow in drills about 15 inches apart, and thin from 4 to 6 inches after they are well up.

Dewey's Early. Of fine form and good flavor	5	10
Extra Early Egyptian. Very early and of good shape	5	10
Extra Early Eclipse. Round rooted, very early	5	10
Early Bassano. Early flat, light color	5	10
Edmand Blood Turnip. Very fine	5	10
Early Blood Turnip. Productive good quality	5	10
Long Blood Red. (Very rich) (All under ground)	5	10
Half-Long Blood	5	10
Swiss Chard (Edible Leaf Stems)	5	10

BEETS—MANGEL-WURZEL & SUGAR.

Culture.—Before planting, soil must be well plowed. Sow in May in rows eighteen inches apart, and thin to eight inches in the rows.

	Pkt	Lb
Champion Yellow Globe. Very fine sort	5	30
Golden Tankard Mangel-Wurzel Productive.....	5	30
Long Yellow Mangel-Wurzel. A good main crop.....	5	25
Mammoth Long Red Mangel-Wurzel. Very large, selected strain.....	5	25
Selician. Sugar.....	5	35
Klein Wanzleben.....	5	35

BROCCOLI.

Culture.—Sow in early spring in shallow drills. Use plenty of manure. Plant two feet apart each way and treat as you would cabbage.

	Pkt	Oz
Early White.....	5	50
Early Purple.....	5	70

BRUSSELS SPROUTS.

Culture.—Sow in May and transplant in July, about twelve inches apart in the rows, which should be eighteen inches or two feet apart.

	Pkt	Oz
Best French, or Rosebury. Very good sort.....	5	15

CABBAGE.

Culture.—Soil for cabbage should be a heavy loam. On such soil well manured, excellent crops are sure to be grown. Sow the seeds in hot beds in February or March.

	Pkt	Oz
(First early.)

Extra Early Dwarf Erfurt. Very fine short stem.....	10	\$3.00

Full Stock of Bulbs.

	Pkt	Oz
Early Snowball. One of the best for forcing or open ground	10	\$3.00
Large Algiers. Popular sort, of enormous size	5	1.00

CHICORY.

Culture.—Sow in June. Transplant roots in autumn into sand in a cellar. Cultivate as recommended for carrots. Pkt. 5. Oz. 10.

CELERY.

Culture.—Sow in open ground as soon as it fit to work in April. In June and July plant in rows 10 or 12 inches apart, and set six inches apart in the rows. About the middle of August we begin the "earthing up" necessary for blanching. After the soil has been drawn up against the plant it is pressed around each plant by the hand firmly enough to keep the leaves in an upright position, using care to prevent the soil from falling into the heart of the plant.

	Pkt	Oz
Boston Market Dwarf. Solid and crisp	5	15
Giant Pascal, Excellent flavor and fine keeping variety	5	20
Golden Self Blanching. On the style of White Plume, except that it is golden yellow	5	25
Golden Dwarf. When Blanched the heart is golden yellow	5	15

JERUSALEM ARTICHOKE ROOTS.

This variety is not produced from seed. They are sometimes used as a table vegetable when pickled, but their greatest value is for feeding stock. They are the best hog food known. They are remarkable for their fattening properties, great productiveness (over one thousand bushels have been grown on one acre) and ease with which they can be grown. They need not be dug; the hogs should be turned in on them, and will help themselves by rooting. One acre will keep from twenty to thirty hogs in fine condition from October until April, except when the ground is frozen to hard to root. They are also said to be a preventive of cholera and other hog diseases, and they are also highly recommended for milch cows, increasing the yield of milk and at the same time improving their condition. Three bushels will seed an acre. They should be cut the same as potatoes, one eye to a cut being sufficient, planted in April or May, in rows three feet apart and two feet in the rows, and cover about two inches deep. They can be shipped at any time during the season as they are not injured by freezing. Peck 50c. Bushel \$1.50.

MILLETS.

We know of nothing like Millet for sowing to cover up shortage in your hay crops. It can be sown up to the middle or end of June, and make a valuable catch crop. Sow 50 lbs to the acre. (Subject to market fluctuations.)

Common Millet—Very early; grows 3 to 4 feet high; foliage broad. (50 lbs to the bushel) per lb., 5 cts.; per bushel 75 cts.

German Millet—Matures about two weeks later than Common Millet; grows 3 to 5 feet high; head closely condensed; spikes very numerous; seed round, golden yellow, in rough sheaths. (50 lbs. to the bushel). Per lb., 5 cts.; per bushel 70c.

Golden Millet—An improved variety, medium early, growing 3 to 5 feet high. The heads are closely condensed, though the spikes are very numerous. The seeds are contained in rough, bristly sheaths and are round, golden yellow and beautiful in appearance. Per lb.; 5 cts.; per bushel 80 cts.

Hungarian (Grass) Millet—Medium early grows 3 to 5 feet high; abundant foliage and slender head; withstand drouth and yield well on light soil. (48 lbs to the bushel). Per lb., 5 cts.; per bushel 70 cts.

SPRING RYE.

Distinct and Valuable.

Distinct from the winter rye, grain of finer quality and more productive; can be successfully grown in any latitude, and is now being largely sown in the Middle States in place of oats, being a much more profitable crop, on account of the production of nearly four times the straw, and also as a "catch" crop where winter crops has failed. The straw is equally as valuable as that of the fall or winter rye, standing stiff, 7 to 8 feet high, produces 30 to 40 bushels of grain per acre as it does not stool like winter rye, not less than two bushels to the acre should be sown. Peck, 60 cts.; bushel, \$1.50.

SEED BUCKWHEAT

New Japanese—The kernels are nearly twice the size of any other, of a rich dark brown color and manufacture a superior flour. Owing to its branching character, only one half as much seed is required per acre, while the straw is much stiffer and stands up better. This new buckwheat has rapidly displaced all other, and is now more largely planted than any other, being two weeks earlier. Peck, 40 cts.; bushel, \$1.00

Silver Hull—Sown at the same time as common buckwheat, this variety continues in bloom longer, and yields nearly double. The flour is whiter and more nutritious Peck, 45 cts.; bushel, \$1.25.

Canada Field Peas and Oats for Fodder.

These make a fodder and hay which in every case doubles the production of milk. The Canada Field Pea, which we sell at \$1.25 per bushel, is the best for this purpose. They should be sown early in April, two bushels of peas and two bushels of oats to the acre. The peas should be sown first and plowed under about four inches deep; the oats then sown and harrowed in. They will be ready for cutting about July 1, when the oats are in milk and the pods formed on the peas.

Our Nasturtiums are one of our Specialties.

CONDENSED LIST OF FLOWERS.

Our list comprises the flowers most easily grown that give the greatest satisfaction with least trouble

ASTERS--Fall Roses.

This has become one of the most popular, beautiful and effective garden plants, growing from ten to eighteen inches high. For profusion of flowers and richness of display the Asters are unrivaled, and constitute the principal adornment of our gardens during the autumn.

- | | |
|---|-----|
| | Pkt |
| Comet Aster —A handsome, new and very distinct class of Asters, resembling the Japanese Chrysanthemums. | 5 |
| Dwarf Pyramidal Boquet —A magnificent dwarf variety, about one foot high. Six distinct colors mixed. | 5 |

| Mixed from above and other kinds. | 5 |

BALSAM APPLE

Momordica

Curious trailing vines with ornamental foliage and odd-shaped fruit, which when ripe open, showing a brilliant red interior; make a nice display of trellis and rock work.

CANDY TUFT

Universally known and cultivated; considered indispensable for cutting. All the varieties look best in beds or masses.

- | | |
|--|-----|
| | Pkt |
| White Rocket | 5 |
| New Carmine —Dwarf plants with vivid carmine. | 5 |
| Mixed Colors | 5 |

CHRYSANTHEMUMS

This magnificent class of summer blooming annuals should be well represented in every flower garden. We know of no class of flowers which will produce such results with so little care. The flowers are borne on long stems and are represented by a great variety of colors. The single ones are particularly handsome, many of them producing tri-colored flowers of great brilliance in coloring. Pkt. 5c.

CALENDULA—Pot Marigold.

Free blooming and attractive plants, growing well in all situations. From one to feet in height.

- | | |
|---|------|
| | Pkt. |
| Fine Mixed | 5 |
| Meteor —This magnificent variety has large and beautiful imbricated double flowers, with stripes of deep orange on a pale yellow ground. | 5 |

| Scandens | 10 |

S. B. STEWART, 119 N. 16th Street, Omaha, Neb.

CALLIOPSIS—Coreopsis.

A very useful and brilliant class of hardy annuals. Flowers are of every shade of yellow, orange and rich reddish brown, and make brilliant groups or low screens. Seed grows very rapidly may be sown where plants are to flower.

Mixed Colors—Of every shade..... Pkt. 5

COCKSCOMB—Celosia.

Highly ornamental plants producing crested heads of flowers somewhat resembling a cock's comb.

Fine Mixed..... Pkt. 5

CANNA.

The Canna are the coming plants of our gardens. The demand of them is rapidly increasing. They are erect, stately plants from two to six feet in height, with ample and elegant foliage. The leaves are green in some varieties and in some purplish and reddish. The flowers are bright colors, red or yellow and variously marked, and peculiar and handsome in form. Pkt. 5.

CYPRESS VINE.

This is a most beautiful climber, with delicate dark green feathered foliage, and an abundance of bright star shaped rose scarlet and white blossoms.

Pkt.
White..... 5
Rose..... 5
Scarlet..... 5
Mixed..... 5

COSMOS.

Of very rapid growth and makes large bushes fully five feet high, which are a mass of elegant foliage. From September until severe frost each plant is covered with hundreds of showy blossoms two inches in diameter.

Pkt.
Hybridus—Mixed Colors..... 5
Pearl White—Large pure white
 Flowers; very beautiful..... 5

Carnations and Picotees—Pink.

The most magnificent of all the pink family and are general favorites for their delicious fragrance and richness of color.

Pkt.
German—Extra fine double mixed..... 5
Double—Mixed..... 5

NEW MARGARET CARNATIONS.

A Magnificent new class of Carnations, and without exception the most abundant bloomers of all. They bloom in about four months after sowing seed. The flowers are of perfect form, large and very sweet scented. The brilliant colors range through many beautiful shades of red, pink, white variegated. Pkt. 5 cts.

CENTUREA CYANUS OR BACHELORS BUTTON.

Corn Flower, Blue Bottle, Ragged Sailor.

A very old favorite hardy annual; flowers freely in almost any situation; for cut flowers they are largely used.

Pkt.
Choice Mixed..... 5

CAPANULA—Canterberry Bell.

The Capanulas are a large genus of showy plants, mostly perennials. The Campanulas medium (Canterberry Bell) claims a situation in all gardens. Easy of culture and certain to flower, all succeed well in good soil. Plant 8 x 12 inches, Pkt. 5.

CUCUMBER—Wild.

A handsome hardy climber, valuable for covering unsightly objects, tree stumps, etc. It is a rapid grower, attaining a height 25 to 30 feet The beautiful green foliage is dotted over with small white flowers, which develop into small prickley fruits, making an attractive display throughout the entire season. Pkt. 5.

DIGITALIS—Foxglove.

Handsome, stately growing plants, with beautifully mottled, thimble shaped flowers, produced in profusion on a stem usually about 3 feet high. The racemes of flowers are about two feet long.

Pkt.
Fine Mixed..... 5

DOUBLE DAISY.

A charming little plant for pots, edgings and borders. Give it a cool partially shaded place. Sow seeds very early. The flowers are abundant in early spring, and may be made to flower later by use of water.

Pkt.
Double Mixed—Finest German Seed 5
Longfellow—Has very double dark rose flowers; come true from seeds of unusual size..... 5
Snowball—A large and very double pure white daisy of the Longfellow type. Flowers on long stems excellent for cutting..... 5

DIANTHUS—Pink.

All of this beautiful class of pinks are hardy and will flower the second season. If not allowed to flower too freely the first season.

Pkt.
Hedewigii—Double Japan Pink. Very beautiful double flowers mixed colors in great variety. One foot..... 5
Hedewigii—Single Flowers three inches across of rich beautiful colors..... 5
Laciniatus—Double Magnificent flowers, very large, petals deeply serrated. 5
Laciniatus—Single Flowers very large. 5

Sweet Peas and Nasturtiums a Specialty

DAHLIAS.

Many people are not aware that Dahlias from seed sown in the spring will bloom beautifully the first summer, and give quite as good, if not better satisfaction than bulbs.

Pkt.

Double Large Flowering—Choice mixed, from selected flowers only 10

New Single—Mixed colors.—The flowers of single Dahlias are large perfectly star shaped, formed of broad petals which are gay and beautiful in color 10

ESCHSCHOLTZIA—California Poppy.

Blossoms about two inches in diameter, of many brilliant and showy colors.

Pkt.

Splendid Mixed 5

FORGET-ME-NOT.

The Forget Me-Not is an old and favorite plant bearing clusters of star shaped delicate blue flowers with white and yellow eyes. Pkt. 5.

FOUR O'CLOCK—Marvel of Peru.

Old fashioned but none the less beautiful; makes a pretty hedge. Flowers are funnel shaped, white and striped; very fragrant and open about four o'clock in the afternoon, remaining open all night.

Hybrid Mixed Pkt. 5

GOURDS—Ornamental Sorts.

A great variety of curiously formed and marked fruit. The vines are of rapid growth, and with luxuriant foliage, adapted for covering screens, arbors, etc. Height 10 to 15 feet.

Mixed—Many beautiful varieties. . . . Pkt. 5

GAILLARDIAS.

Although long neglected, the single Gaillardia, or Blanket Flower, has lately come into well deserved popularity. Of magnificent size and wonderful profusion, the flowers are greatly admired for their fine forms and rich blending of colors, they thrive anywhere.

Pkt.

Fine Mixed Varieties—This mixture, although so cheap, is equal to any high priced. 5

HOLLYHOCK.

The Hollyhock, in its present state of perfection, is very unlike its parent of olden time. For a background to a flower garden perhaps no plant is so useful. The flowers are as double as a rose, of many shades of color.

Pkt.

Double Pure White 5

Double Lemon Color 5

Double Crimson 5

Double Flesh Color 5

Extra Choice—Double mixed many kinds 5

HUMULUS.

A rapid growing climber, with luxuriant foliage excellent for covering verandas, etc. Withstands heat and growth well and is not covered with insects Pkt.

Variegated Japan Hop—The foliage is beautiful blotched. 10

ICE PLANT.

A singular looking plant with thick, fleshy leaves, which have the appearance of being covered with thick crystals of ice. Pkt. 5.

LARKSPUR.

A popular plant, producing beautiful spikes of, double flowers in many colors. If sown early in the spring they will flower in June or July. Pkt. 5.

LOBELIA.

Exceedingly pretty, profuse blooming plants of great value to flower garden; their delicate drooping habit, and the profusion of their charming little flowers, render them extremely ornamental. Very fine for hanging baskets.

Pkt.

Erinus Gracilis—Blue. 5

Crystal Palace—Dark Blue, splendid. 5

MIGNONETTE.

A well-known hardy annual, producing dense semi-globular heads of exceedingly fragrant flowers born on spikes from three to six inches long. It is in bloom nearly the whole season, and the perfume is so strong and fragrant that the whole atmosphere round is perfumed.

Pkt

Reseda Odorata—Large Flowering. . . . 5

Golden Queen—It is a mass of golden yellow when in flower. 5

Matchet—A variety of very dwarf, vigorous growth with massive spikes of deliciously scented red flowers. . . . 5

MIMULUS

MONKEY FLOWER.

Beautiful Free-blooming plants, suitable for vases or hanging baskets, luxuriating in damp shady situations.

Pkt.

Noschatus—(Musk Plant.) Yellow foliage and flowers having a delightful musk scent, ½ foot. 5

MOON FLOWER.

Beautiful climbers and exceedingly attractive mixed with other climbers. Flowers of graceful form. Pkt. 5.

MORNING GLORY.

Many bright colors mixed. Pkt. 5

Imperial Japanese Morning Glories.

The vines are strong and of robust growth, attaining a height of from 15 to 30 feet. It is in the flowers, however that we find the most enchanting sight possible to be found in any of our climbing plants: They are of gigantic size, often measuring 3 to 5 inches across. The colors of the flowers are almost indescribable, ranging from the palest shades of pink or rose down to deep red, maroon and purple, light azure blues, to indigo, pure white and creamy or grey whites.

S. B. STEWART, 119 N. 16th Street, Omaha, Neb.

NASTURTIUMS.

The Nasturtiums I offer this year are of the same varieties as planted on grounds of the Trans-Mississippi Exposition in 1898.

Should not be planted in too rich soil. The dwarf varieties are among the most useful of annuals for bedding, massing, etc., owing to their compact growth, richness of color, and profusion of blooming. The tall-sort are admirably adapted for rock work, covering trellises or rustic work.

Dwarf Nasturtiums, 6 to 12 inches.

	Pkt.	Oz.
Empress of India —Foliage purple blue, bearing brilliant deep scarlet flowers, a profuse bloomer of a most showy class.....	5	30
King of Tom Thumbs —Quite distinct, leaves very dark flowers, rich crimson, a very brilliant effective sort.....	5	20
Bronze Curled —Flowers of bronze metallic lustre, a very distinct color.....	5	15
Cattel's Crimson —Showy variety equal to any in startling effect....	5	15
Pearl —Flowers white, a rare color among Nasturtiums, producing a pleasant effect.....	5	15
Mixed Dwarf Sorts —A mixture of the best dwarf sorts, producing when in bloom an agreeable effect in colors of scarlet, crimson, bronze, gold and white.....	5	15

TALL NASTURTIUMS, 3 to 10 feet.

	Pkt.	Oz.
Pearl —Delicate Creamy-white flowers contrasting finely with the orange, gold and scarlet of more brilliant varieties.....	5	15
Spit Fire —Remarkable in its intensity of startling brilliancy; one of the finest sorts.....	5	25
Tall Bright Rose —Very choice sorts, producing a rose colored flower....	5	20
Dunnett's Orange —A very vigorous grower, producing a showy deep orange flower.....	5	20
Mixed Tall Sorts —A combination of many Tall varieties, colors, white, cardinal, orange, rose, scarlet.....	5	15

PORTULACA.

(Rose Moss)

Makes a dazzling display of beauty, many hued, highly colored. Are in bloom from about the first of July till frost. Plant in open ground after it has become warm, in light sandy soil and in a dry situation. Bed should be exposed to the sun.

	Pkt.
Finest Single Mixed —Many beautiful sorts.....	5
Double Rose-Flowered —Perfectly double of many brilliant colors, as well as striped.....	10

POPPIES

Showy and ornamental plants with large flowers of brilliant colors. Very attractive in large beds, clumps and mixed borders. They are of very easy culture, and succeed in any garden soil.

	Pkt.
Carnation Flower —Splendid double flowers, mixed colors.....	5
The Shireley —This beautiful new single Poppy runs in colors from purest white through the most delicate shades of rose, pink and carmine to deep crimson.....	5

PETUNIA

Most valuable plants, succeeding well everywhere. They are particularly showy in beds or masses, and are universal favorites on account of their richness of color, fragrance and continuous blooming.

	Pkt.
Petunia Hybrida, finest mixed. A good mixture embracing all colors including striped and blotched varieties; very profuse flowering and excellent for bedding or massing.....	5
Double Petunia	15

PHLOX DRUMMONDII.

The Phlox Drummondii for splendid mass of colors and a constant display, is not excelled by any other annual or perennial. It has every desirable quality for this purpose. The colors range from the purest white to the deepest blood purple or crimson. Pkt. 5c.

PANSY.

Our pansy seed are the best to be obtained. This favorite flower is one of our specialties and the following varieties and mixtures are secured from Europe and elsewhere regardless of cost.

	Pkt.
Odier (Five Blotched) —A beautiful strain of various colored, large, handsome, perfect formed flowers dark spots on each petal.....	10
Emperor William —Large, handsome flowers, borne in great profusion. Well above the foliage, brilliant ultramarine blue, with a purple violet eye.	5
Azure Blue —Extra fine.....	5
Light Blue —Lovely shades of sky blue.....	5
Yellow Gem —Without eye; very fine.....	5
Dark Purple —Rich deep purple; fine.....	5
Mahogany Colored —A very fine variety.....	5
Snow Queen —Very large; satiny white.....	5
King of the Blacks —Almost black, the darkest pansy known.....	5

Our Sweet Peas cannot be Equalled.

PANSY—Continued.

Silver Edge —Dark purple with a distinct white edging, a most charming pansy.....	Pkt 10
Large Flowering —Very fine mixed Embracing many separate colors and choice kinds.....	10
Good Quality Mixed	5
Lord Beaconsfield —Large flowers of deep purple violet, shading off in the top petals to a white hue; highly effective.....	5

GIANT TRIMARDEAU.

Flowers of enormous size. An altogether distinct and beautiful new race, the flowers of which are larger than any hitherto produced. Each flower is marked with three large blotches of spots, and the plants are of compact growth and produce an endless variety of beautiful shapes. Pkt. 15c.

PRIZE MIXED PANSIES.

An extra fine mixture of all the best varieties of show, fancy, striped and spotted Pansies, and also the large giant-flowered Pansies of the improved Trimardeau and Cassiers Giant Odier types. Pkt. 25c

PYRETHRUMS—Feverfew.

Old favorite herbaceous plants, very much in use for borders.

	Pkt	Oz
Parthenifolium Aureum —(Golden Feather)—Bright golden foliage.....	10	
Double —Beautiful large flowering plants.....	10	

RICINUS—Castor Oil Bean.

Magnificent tall-growing foliage plants, very useful as specimen plants on lawns, or groups in center of large beds. Their brilliant leaves and fruits create a grand sub-tropical effect.

	Pkt.
Barboniensis Arboreus —Very large and handsome foliage; 15 feet.....	5

SWEET WILLIAM.

A very beautiful class of plants of extreme richness and diversity of color.

	Pkt
Fine Mixed Single —All colors.....	5
Double Flowering —Mixed, splendid collection.....	10

SMILAX.

Charming tender perennial climber, for window gardens. Pkt. 5.

SALVIA.

The Salvia is a very ornamental plant flowering in spikes, and continues to bloom in open ground until frost.

	Pkt
Patens —Brightest and bluest of all blue flowers.....	10
Splendens —Gorgeous plants with spikes of intensely vivid scarlet flowers.....	10

SWEET PEAS.

Did you see the Sweet Peas in bloom on grounds of Trans-Mississippi Exposition last summer? I furnished the seed which produced that Bloom and now sell seed of same vitality and varieties.

The Sweet Pea, as respects size, texture, diversity of colors, exquisite shades, phenomenal production of blooms and exquisite perfume, has in the last few years jumped to the first place among the sweetest of climbing plants. So productive is it that single plants have been known to have borne over 1000 sprays of flowers.

In planting the seed it should be put into the soil in very early Spring, to secure an early development, as early, if not earlier, than the planting of garden Peas. If sown in rows, the trenches to receive the seeds should be marked out three to four inches deep and half filled with manure and the seeds placed half inch apart, the plants to be finally thinned to three inches apart. Planted in single rows, 1 ounce of Sweet Peas will seed 20 feet, but for effective purposes, 1 ounce should be allowed to every 10 feet, or even less.

DOUBLE SWEET PEAS.

The varieties we offer will, under ordinary circumstances produce a large percentage of double flowers. These double flowers are very attractive, being waived and crimped with none of the usual stiffness of double flowers. They are vigorous growers, very free flowering and possess all the fragrance of the ordinary Sweet Peas. Our mixture is composed of very choice sorts representing a wide range of colors. Pkt. 10.

SWEET PEAS—White Class.

	Pkt	Oz
Mrs. Sankey —Pure white flowers, large. Similar to Queen of England, but larger flower.....	5	10
Emily Henderson —Pure white, earliest to flower. Compact vine.....	5	10
Primrose —Light yellow, rare shade... ..	5	10
Mrs. Eckford —Light canary, nearly yellow.....	5	10

ROSY CLASS.

Fairy Queen —White penciled with pink.....	5	10
Lady Beaconsfield —Yellowish white with rosy wings. Vigorous vine Choice sort.....	5	10
Lottie Eckford —White, shaded with pink and indigo.....	5	10
Mrs. Gladstone —Pale rose and buff. Fine large flower.....	5	10
Blushing Beauty —A heliotrope pink suffused with lilac. Fine sort, not excelled.....	5	10
Venus —Rose with a buff and decided sulphur tint. Excellent sort. Late to flower.....	5	10
Gaiety —Magenta and white striped. Very desirable. Carnation striped like Queen of the Isles.....	5	10
Queen of the Isles —Carnation flowered white and striped.....	5	10
Apple Blossom —Bright, rosy, pink and white. Very choice. Similar to American Bell.....	5	10
Improved Painted Lady —Rosy, crimson and white. An excellent Short-vine.....	5	10

S. B. STEWART, 119 N. 16th Street, Omaha, Neb.

SCARLET CLASS.

Lady Penzance —Bright rose and pink	Pkt	Oz
Very fine. Large flower. Similar to but more scarlet than Orange Prince.	5	10
Her Majesty —Rich, deep scarlet rose.		
Very fine. One of the best.	5	10
Splendor —Crimson and magenta.		
Choice. Similar to Duchess of Edinburgh	5	10
Firefly —Brightest of the scarlets.		
Fine solid color. Very similar to Cardinal	5	10

PURPLE CLASS.

Princess of Wales —Lavender mauve, purple and carnation-striped. Fine sort	5	10
Boreaton —Purple crimson, very dark velvety maroon. Distinct color	5	10

BLUE CLASS.

Countess of Radnor —Delicate lavender and reddish mauve. Very superior	5	10
Emily Eckford —Violet blue, best of that color. Large bold flower	5	10
Dorothy Tennett —Showy, purple-blue fine variety	5	10
Grand Blue —Body royal blue. Blue crimson standard	5	10

MIXED CLASS.

1st Selection —All the above sorts mixed, per pound 50c.	5	10
---	---	----

TEN WEEKS,—Stock.

All the varieties are desirable as pot plants, as well as in the open garden. They are greatly prized for cut flowers on account of their fragrance and diversity of colors. Pkt

Fine Mixed —	5
---------------------	---

VERBENAS.

Verbenas are more easily grown from seed than from cuttings, and the plants produced in this way are more vigorous and free-blooming. If sown early in the spring they will flower quite early in the season and continue until destroyed by frost. They are almost indispensable for bedding as they spread rapidly and bloom with freedom.

Best Mixture	Pkt	5
---------------------	-----	---

ZINNIA.

The Zinnia is a beautiful annual and general favorite, its splendid double flowers rivaling in beauty, size and form moderate sized Dahlias. They bloom until frost sets in.

ZINNIA—Continued.

Large Flowering —Finest double mixed many shades and colors	Pkt	5
--	-----	---

SUMMER FLOWERING BULBS.

The summer flowering bulbs and roots for spring planting are inexpensive, very easily grown, requires scarcely any care and produces some of the most showy and beautiful of all summer and autumn flowers.

Caladium Esculentum —A beautiful large, showy foliage plant; immense leaves, frequently four feet by two and one-half feet. Bulbs one to inches in diameter	Each.	Doz.	15	\$1.50
Extra Fine —Two and one-half to three inches			25	2.50
CANNAS —Ever Blooming French Cannas.				

Nothing is more effecting for grouping on lawns or for large beds. Each 25c. \$2.50 doz.

MADERIA VINE.

A rapid growing, graceful vine, with smooth waxy dark green leaves, and dainty racemes of tiny fragrant white flowers. Will grow in almost any situation. Each, 5c; Doz. 50c.

Our Flower Seeds Always Please.

BEGONIAS—Tuberous Rooted.

These are the handsomest of our summer flowering bulbs, and are not grown to the extent they should be. Any amateur can grow them, as they require no more care than Geraniums or other greenhouse or bedding plants. They are covered the whole summer with bright and elegant drooping flowers; blooming the first season from seed.

Double —Finest Mixed	Doz.
	\$1.25
Single —Finest Mixed	2.50

CINNAMON VINE.

A very pretty vine to train around the window or on a trellis. In Midsummer the plant is covered with a brilliant, glossy foliage and an abundance of fragrant flowers. It is also an exceedingly quick grower having been known to attain a height of 20 feet in one season. Extra large roots, 10; 3 for 25; dozen \$1.00.

LAWN GRASS SEED.

This lawn grass mixture is composed entirely of the finest quality of fine leaved dwarf-growing grasses, in such proportions as will enable it to withstand the extreme heat of our summers. The grasses which compose this mixture are extra

well cleaned, so that all weeds are excluded, leaving nothing but the pure, clean seed

We recommend four bushels to the acre. It is necessary to sow the seed very thick to get the most pleasing result—that is a good lawn.

The best time to sow grass seed is in the Spring or about the latter part of August. We prefer the spring. The success of establishing a good lawn depends much on the season and the condition of the ground at the time of sowing. A light raking in will protect the seeds greatly. Rolling, however, is at all times indispensable, and should any weeds appear they should be eradicated.
